"I recommend that the Legislature take steps to enforce by appropriate legislation Article XVII of the Constitution. That article provides that all interest of the constitution. dividuals and associations shall have equal rights upon railroads and canals, without discrimination in charges or facilities as to persons or places. It prohibits the consolidation of the stock, property or franchises of competing companies. It provides that common carriers shall not engage in any kind of business other than that of common carrying. It seeks to prevent officers of corporations from corruptly profiting by the business of their companies. It prohibits unfair preferences in furnishing cars or motive power by drawback or otherwise between transportation com-panies and individuals. It also forbids the issuing of free passes to any person other than officers and employees. In short, Article XVII seeks to make transportation companies act justly, to compel them to treat all citizens impartially and fairly, to make them deal honestly, and to prevent harassing or oppressing either by imposing penalties for their violation or in such other way as the Leg-islature may determine. The Constitution was adopted in 1873, and up to this time no effort has been made to enforce time no effort has been made to enforce its just provisions as to railroads and canals. Ague Cure

Is a purely vegetable hitter and powerful tonic, and is warranted a speedy and
certain cure for Fever and Ague, Chilis
and Fever, Intermittent or Chili Fever, Remittent Fever, Dumb Ague,
Periodical or Rillous Fever, and all
malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirst,
lassitude, loss of appetite, pain in the bask
and loins, and coldness of the spine and
extremities, are only premonitions of
severer symptoms, which terminate in the
ague paroxyan, successed by high fover
and profuse perspiration.

It is a startling fact, that quinine, arse-

and profuse perspiration.

It is a startling fact, that quinine, arsenic and other poisonous rainerals, form the beats of most of the "Fever and Agmo Preparations," "Specifica," "Syraps," and "Tonics," in the market. The preparations made from these mineral poisons, although they are palatable, and range break the chill, do not care, but leave him malarial and their own drag poison in the system, producing quinism, disnivess, ringing in the cars, hendache, vertige, and other disorders more formidable than floo disease they were intended to care. Ayen's Asia, Cara, theoroughly cradientes these nexious poisons from the system, and always cares the severest cases. It contains no quinine, mineral, or my thing that could injure the most delicate proteint; and its covering excellence, above its certainty to care, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, Aven's Acom-Cone, by direct action on the liver and biliary apparatus, drives out the poisons which produce these complaints, and stim-ulates the system to a vigorous, healthy
